Hawkins cGMP Phosphates

Hawkins Pharmaceutical Group supplies Potassium Phosphate and Sodium Phosphate in a variety of molecular configurations and compendia for use in pharmaceutical and biotechnology manufacturing. All Hawkins Phosphates are processed in our Minneapolis, MN pharmaceutical production facility.

Hawkins Quality Systems

Hawkins follows strict cGMP guidelines for pharmaceutical excipient manufacturing, packaging, and distributing as set forth in Q7A Good Manufacturing Practice Guidance for Active Pharmaceutical Ingredients and IPEC Guidance for Excipient Ingredients.

In addition, Hawkins is audited by many of the top pharmaceutical, biotechnology, and medical device companies operating in the US. Our open door policy and transparency during audits gives our customers the peace of mind that their phosphates are being produced and handled in a manner that aligns with their operating principles.

Management of Change Program

Hawkins employs a rigorous management of change program. We are committed to keep you informed of any significant changes to our products that could impact your supply chain. We promise to notify you of any changes with enough advanced notice to allow you to make proper accommodations to your planning requirements. Please contact Hawkins to execute a customer change notification agreement.
